

## Lightning Protector Unit

### Item No

### Description

WT-1039A

Lightning Protector Unit

- With 3P Arrester(DC Spark-over Voltage:230V or 350V)
- Specially designed in single unit for protecting lines individually. Protects the desired quantity of lines. In case one of them burns out, It is easily replaceable without any disturbance to other protectors and lines. Whenever there is an overvoltage on the line due to lightning strike, The protection unit will clamp down the voltage immediately.
